

Win \$150 for your favourite charity

If you use a CoolLED Light Source and want to tell the world about your research, you could win \$150 for a registered charity of your choice by sending us an application note or video.

How do I enter?

Create an application note: ~500 words with three images (or a video of your samples) covering the following points:

- Your research topic and why it's important to you, society and the world
- What you did and how your CoolLED Light Source helped you
- What you achieved
- The conclusion and impact of your studies

Submit this to Marketing@CoolLED.com along with your registered charity of choice and a few words about yourself.

The closing date is 01 September 2019.

How do I win?

We're looking for inspirational science with a splash of creativity, backed by passionate scientists and a CoolLED Light Source. The entries will be judged by our expert panel and the top 10 will win the donation. Even if you don't hit the top 10, we'd still love to help promote your research and share the note or video on our website and social media.

We'll announce the winners on 16 September 2019.

Good luck!
