Environmental Policy

CoolLED is a growing and ambitious company which recognises the importance of establishing and maintaining an effective Environmental Management System (EMS) and seeks third party verification through ISO 14001 certification. This ensures that reliable and repeatable processes are in place to fulfil compliance obligations.

The EMS is a vehicle for continual improvement and achievement of CoolLED's Mission and Values. The objectives set are consistent with the goals and targets for business growth, strategic direction and sustainability.

CoolLED's mission is:-

> To advance science and industry with cutting-edge solid-state illumination systems that transform optical inspection and imaging research to better people's lives.

As a provider of sophisticated LED illumination systems, CoolLED ensures all relevant compliance obligations, certification and approvals are met and available for verification by our stakeholders.

CoolLED's ambitious staff are passionate about using technology and new ways of working to solve problems and are committed to sustainability. Our aim is to be market leaders and innovative in all aspects of business performance.

We lessen our impact on the environment by conserving natural resources such as energy, raw materials and water, promoting effective waste management by applying the waste hierarchy, preventing pollution, and engaging in community initiatives.

CoolLED is committed to managing the risks of adverse environmental impacts both at CoolLED and in our supply chain. We champion suppliers that implement the best environmental practices.

We operate in a supportive and open manner, respecting the environment. We are accountable, consistent, and transparent in our practises.

The Executive Directors (ED) are committed and contribute to the development and execution of our environmental process. They supply the necessary resources to implement this policy and ensure that this commitment is understood and embraced by all staff within the company.

The ED, and ALL our staff are committed to this policy and the EMS.
